

# Navigating the Depths of Medicaid Administration

Medicaid program expenditures continue to grow, often at faster rates than state economies.

**UMass Medical School** helps states navigate their high-priority challenges, by offering specialized services and expertise to contain costs and improve outcomes.

## Where do we begin?

### MEDICAID CONSULTING AND OPERATIONS

**\$50B saved**  
for a state Medicaid program over the life of our partnership

**\$64M annual cost avoidance**  
for one state through TPL activities

**\$25 saved for every \$1**  
spent for a Medicaid pharmacy program

## Diving deeper...

### DELIVERY SYSTEM AND PAYMENT REFORM

**Guided waiver design**  
under Section 1115 and Section 1332

**Built models to assess**  
impact of proposed reform changes

**Linked payment models to care delivery**  
and supported clinical practices

## Taking the plunge...

### LONG-TERM SERVICES AND SUPPORTS

**\$22M annual savings**  
through LTSS prior authorization activities for one state

**Assisted over 2,100 Medicaid members**  
through complex care management

**Processing >40,000**  
disability determinations annually for clients

## Exploring the depths...

### MEDICARE ELIGIBILITY ENHANCEMENT

**~\$200M saved**  
for states by identifying Medicaid recipients with missed federal benefits

**Achieved more than 90% Medicare enrollment**  
for SSI recipients over 65

**\$100M saved and recovered**  
in Medicare premium overpayments for states
